

**Always on the go!**

# OK Media – Spot on!

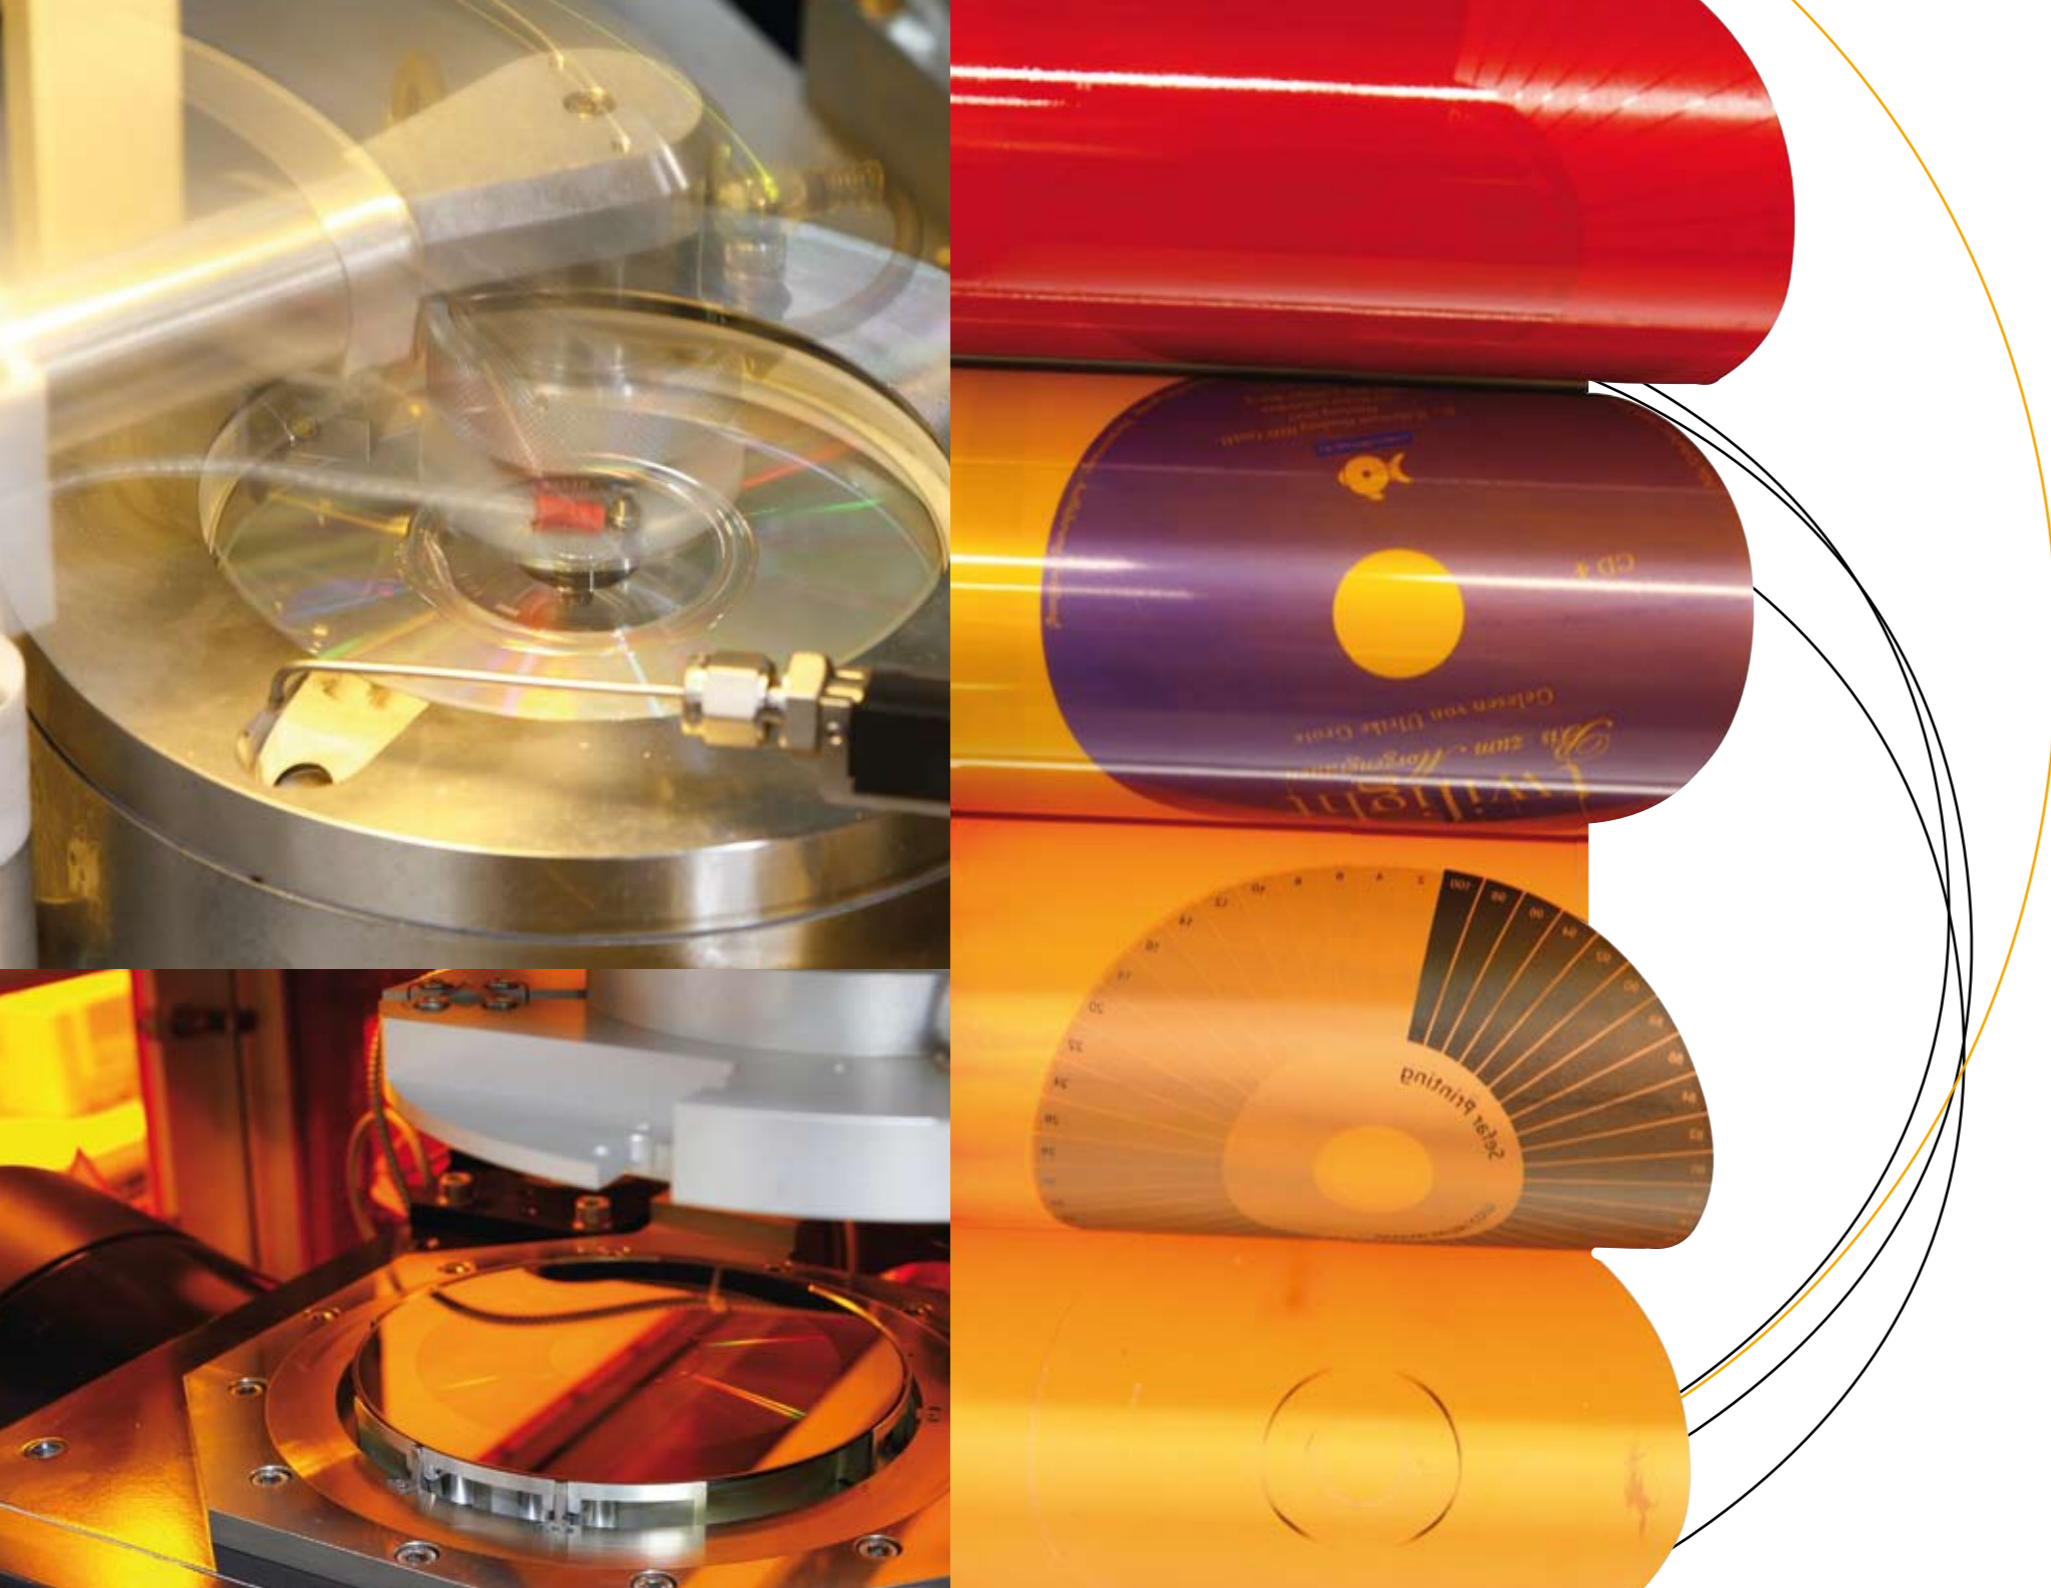

## Innovative and in tune with the latest technology

OK Media, previously known as TELDEC PRESS (a Time Warner Company), is one of the largest independent established replicators and fulfilment houses in Europe with extensive experience in manufacturing sound and video data storage such as CDs, DVDs and duplication and branding of FlashCards and USB-sticks.

Our production facility in Boizenburg near Hamburg is one of the latest and most innovative factories in Europe, with an authoring studio giving you all-round service - creating menu graphics, format conversions, encoding and implementation of all common copy protection systems. Our daily capacity of about 370.000 CDs and DVDs is handled by an experienced team. With more than 50 years experience, OK Media ensures the highest rate of customer satisfaction!

## Focused on your requirements.

### Time is money

Flexibility is key. Our highly motivated staff will ensure that production runs smoothly. We are constantly optimising our processes in order to keep our standards to a maximum and your costs to a minimum. Your goals are our goals and we help you reach them.

### One stop shop

OK Media presses, prints, packages and ships all your products so that you can be assured of a quick, flexible and secure service.

### Stay safe

OK Media has its own pre-mastering department and in-house specialists who can integrate all common copy protection systems for CD and DVD including SecuROM (licensed by Sony) and Fortress.

# Quality at every level.

## Taking care of the environment

We ensure that all resources are used in the most environmental friendly way possible and pride ourselves on recycling 99.9% of the waste produced. We maintain the highest quality levels with minimal impact on the environment.

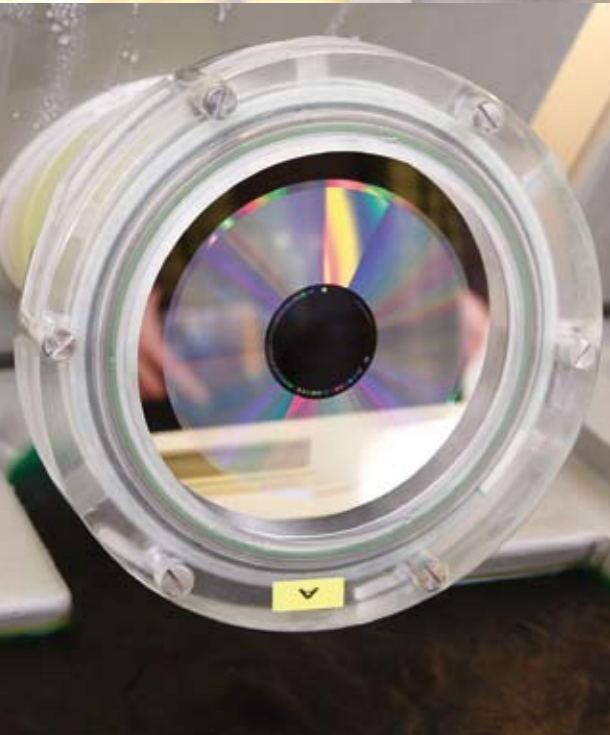

## No compromise

Quality is our highest priority. We have a strict internal and external quality control system working with ISO-certified suppliers.

## 50 years experience

OK Media gives you peace of mind. For 50 years, we have been manufacturing data storage in the form of LPs, MCs, LDs, CDs, DVDs or FlashCards and you can benefit from our experience too.

## Anything is possible!

### Be unique!

We pride ourselves on being focused on our customers. Should you have specific packaging ideas, need displays or help planning printed parts like inlays, booklets or manuals up to 300 pages – talk to us! We're here to help.

### Get moving

Our logistics department has a handling and storage area of more than 12.000 sqm and up to 400 employees on hand for hand-packing, serialisation, filling displays, pick and pack service, reworking existing products and managing any distribution needs you may have.

## All about OK Media.
